

As **Tool Mechanic (m/f/d)** **for stamping and forming technology**

you will play an active role in developing, manufacturing and processing stamping, forming, transfer and progressive tools.

Your tasks include:

- Construction of stamping, forming, transfer and progressive tools
- Creation of devices and test gauges
- Maintenance and repair of tools

We are looking for a committed personality with the following profile:

- Successfully completed technical vocational training, preferably as a toolmaker, and several years of experience in toolmaking
- Solid knowledge in the construction of forming tools, ideally progressive and transfer tools
- Solid knowledge in the manufacture of mechanical components
- Experience in working with turning, drilling, milling and grinding machines
- Reliable, independent and structured way of working
- Team and communication skills

Your benefits at Binder:

We offer you a challenging and holistic position in an innovative company with flat hierarchies. You will work in a motivated and professional environment with long-term prospects for professional and personal development. We offer you a performance-related salary and other benefits such as a company pension scheme, bicycle leasing and an in-house canteen.

Exactly yours? Apply now, stating your starting date and salary expectations!
